(CCC) Parking spaces operated by Cambridge City Council

My request is based on the issue of electric charging bay provision.

Below I have outlined the data fields I'm interested in and I'd like to request the data for the following dates:

- 1 January 2021 - 1 November 2021 (if available)
- 1 January 2020 - 31 December 2020
- 1 January 2019 - 31 December 2019
- 1 January 2018 - 31 December 2018

I'd like the data for each year to cover:

- The total number of parking spaces for each car park type (multi-storey, pay & display, free car parks, garages)
- A breakdown of the number of standard bays, disabled bays, parent & child bays, electric charging bays and car club bays at each car park type.

Response

Please see file attached as response.

We also publish data under the local government transparency code about car parks where we operate Traffic Regulations Orders

<https://www.cambridge.gov.uk/open-data-transparency-in-local-government>

None of our Car Parks have Electric charging yet, Cherry Hinton Hall the one listed. I think you also need to add Lammas Land to the spreadsheet

75 spaces

4 disabled parking bays

Space for 6 motorcycles

Further queries on this matter should be directed to foi@cambridge.gov.uk
