

**(CCC) Vehicles and electrification**

- The total number of vehicles in the Council's fleet i) currently managed by Council services and ii) managed by an external provider, including a breakdown by vehicle type (i.e. car, van, tipper, HGV etc.).
- The total number of vehicles within the Council's fleet, and the fleets of those to which services have been outsourced, that are electric, including a breakdown by vehicle type.
- The total number of vehicles within the Council's fleet, and the fleets of those to which services have been outsourced, that have telematics installed.
- The name of the current telematics provider used across the Council's fleet and the fleets of those to which services have been outsourced, and the end date for the current contract with the telematics provider.
- The expected date by which the entire Council fleet, and fleets of those to which services have been outsourced, will be electric.
- Any further information on plans for the electrification of non-electric vehicles within the Council fleet.
- The number of electric vehicle charging points currently in operation and used by the Council's fleet, and the fleets of those to which services have been outsourced, including a breakdown by the number of a) depot-based, b) home charging, and c) public charging points respectively.

**Response**

- 1) Please find attached complete fleet list of vehicles managed by Council services. This list gives: make; model; type; fuel type and user department. All of these vehicles are managed in-house with the exception of the refuse collector vehicles operated by the Shared Waste Service. These vehicles are operated by the Greater Cambridge Shared Waste Partnership but are still maintained in-house by Cambridge City Council.
- 2) There are 12 electric vehicles in the Council's fleet but of these none of them are outsourced.
- 3) All of the vehicles in the Council's fleet have telematics installed but of these none of them are outsourced.
- 4) The supplier of the telematics system is Quartix, this contract is due to expire in April 2022.
- 5) The Council are aiming to have their whole vehicle fleet electrified by 2030.
- 6) The Council have four charging posts at the Cowley Road depot, each of these posts can charge two vehicles simultaneously. The Council have other charge points but these are located in car parks and are not used by the fleet.

Further queries on this matter should be directed to [foi@cambridge.gov.uk](mailto:foi@cambridge.gov.uk)
