### **(CCC) Procurement weightings for social value**

- The social value weighting applied in all above threshold tenders and frameworks issued in 2021 for contracts or frameworks. I do not require information on products or construction, only services, but if the information is recorded in one dataset, I am happy to “clean” this myself.
- The price and quality weightings used in the above contracts or frameworks. Again, if the dataset contains all tenders, I am happy to “clean” the data.

An MS Excel file is the preferred format, but any other format should be ok too.
