

(CCC) Cambridge Environmental Research Consultants

Please could you send me copies of any reports prepared for Cambridge City Council by CERC (Cambridge Environmental Research Consultants) in the last twenty years. In particular, the highest resolution copies available of the air quality heatmaps from figures 7.3-7.6 from the 2009 "Air Quality Action Plan" (<https://www.cambridge.gov.uk/public/ldf/coredocs/RD-CC/rd-cc-440.pdf>).

Response

I have looked back on our digital records and I believe that the first work CERC completed for us related to the preparation of the 2009 AQAP you referenced which was completed over 2009 and 2010. I have attached what I believe to be all the work Cambridge City Council has commissioned CERC to undertake since this time.

Where the attached file is draft I have been unable to locate a final report; it may be we never received one if there were no changes made. We do not have the maps you refer to in any higher resolution that I have been able to locate although I have attached some 2016 baseline maps which may be better than those integrated into reports which I found on file.

The reports attached are listed below:

- FM761 Emissions Inventory for South Cambridgeshire, Cambridge City and Huntingdonshire – 2nd March 2010
- FM762 An Air Quality Modelling Study across Cambridge and the surrounding district to determine the impact of proposed development and the congestion charging scheme 29th June 2009
- FM762 – Appendices

- FM762 Emissions Inventory Model Runs for South Cambridgeshire and Cambridge City - Run 2 - 2nd March 2010
