(CCC) Shipping containers

I would like to know the number of enforcement actions you have served over shipping containers not having proper planning permission. I would like this information broken down for the years (2018, 2019, 2020, 2021, and 2022), the outcome of enforcement action and where the container was located (for example on green belt land, in a back garden of a dwelling, on a brownfield site).

**Response:**

Thank you for your request for information above, which we have dealt with under the terms of the Freedom of Information Act 2000.

I hope the information below will answer your query.

From 2018 – 2022 there was one instance of a shipping container being used as a structure to house a take-away unit located on a commercial and leisure development. An application was received to retain the structure and use which was granted and the investigation closed.

We aim to provide a quality service to you and hope that you are satisfied with this response, however if you have any questions, please contact us.
