(CCC) 5G

Please supply the following information under this request as governed by the Freedom of Information Act:

- 1.The ICNIRP certificates issued for 5G masts in the Council's area.
- 2.The power output of each antenna in dbm or Watts for each 5G mast in the Council's area and the power intensity drop off calculations supplied by the applicants for any 5G beams emitted from such antennae, since 5G beams do not obey the inverse square law.
- 3.A copy of the section of the Council's public liability insurance policy showing indemnity cover for any potential personal injury claims which might be brought to the Council in relation to harm caused by wireless pulsed microwave radiation from this 5G technology;
it is alleged that a USA telecom company is making provision for such claims in its statutory accounts and wireless technology has the same technical signature worldwide. For example, a 5G technical parameter is beam-forming.
- 4.The Environmental Impact Assessments conducted by the Council for 5G masts.

Response

I hope the following will answer your query. Please note that with regards to question 3, we have not been able to obtain this information as yet. We are in the process of obtaining this from our insurance team and hope to be able to provide an answer to this specific point by 6th January 2023.

- 1) The ICNIRP certificates are available on the application file via public access via this link Simple Search (greatercambridgeplanning.org)
- 2) This information may be included within the application documentation, but this is unlikely to be provided as it is not relevant to the application. You may need to contact the applicant directly to obtain this specific information.
- 3) See above
- 4) Environmental Impact Assessments are not relevant to the proposals and therefore we will not have any available.

Further queries on this matter should be directed to foi@cambridge.gov.uk
