The Plan Area

What is the area covered by this plan?

We are proposing that the plan boundary should include the area to the east of Milton Road (formally referred to as Cambridge Northern Fringe East) and the Cambridge Science Park. The Plan area totals around 165 hectares.

The proposed boundary reflects the need for a comprehensive approach to managing transport movements across the area to enable significant further development to take place. We need to make sure the North East Cambridge area works as a whole if we are to achieve our vision.

Is this the most appropriate boundary? Are there other existing features we should be aware of?
