Clay Farm Community Gardens consultation summary Dec 2018

Consultation was arranged by the Clay Farm Community Garden group. This opened on October 27th and closed on December 14th. A web based consultation was created, with the option to complete a hard copy questionnaire. Flyers were posted and 7,000 leaflets were distributed widely, with one to every home being included with the Trumpet parish magazine, and publicity on local social media platforms such as Nextdoor and Trumpington Neighbours Help Me Out. Stands were held at the Clay Farm Centre opening and at Trumpington Meadows School Christmas Fair, with displays and information materials. Two face to face events were held in November and December at the Shed with good attendance at both. In addition, the City Council and Countryside Properties Ltd arranged two further public meetings in January, also well attended.

Question	Comments	Action
Use of the Garden	Socialising, relaxation, venue for outdoor activities.	Comments have been
	Mix of formal and informal areas.	circulated to Landscape
	Some educational use and links with the local school.	Architect to consider in
	Enhance bio diversity.	design of gardens.
	Area where events could take place, similar to those held in the	
	summer. Aesthetically pleasing to those residents who overlook	
	the site as well as those walking through and past.	
The Building	Rustic appearance.	Comments have been
	Not rustic – must fit in with local area	circulated to Landscape
	Energy efficient building	Architect to consider in
	Accessible toilet / hand wash facilities	design of gardens.
	Small as possible / practical	
	Link to iron age buildings found on site / near by	Consideration to comments
	Current build should remain in current location and just be clad.	will be made when putting in
	Not a meeting space (Clay Farm centre caters for this)	planning application for the
	Should be on the allotments	building.
	Serving hatch for vendors to use	
	Situated on west side of the gardens	

	Small and tidy	
	Small and tidy Green roof	
	Solar panels	
	Used for equipment store only	
	Aesthetically pleasing for those who have to look at it.	
Garden Features	Water feature	Comments have been
	BBQ feature	circulated to Landscape
	Willow feature (workshops)	Architect to consider in
	Self-filling water tanks	design of gardens.
	Pond / pond dipping	
	Ecology / wildlife features	
	Entrance arches for climbers	
	Noticeboard	
	Wild flowers	
	Habitat boxes	
	Compost area	
	No polytunnel	
	Maze of wild flowers	
	No bays for woodchip etc	
	Raised beds to break path vista up	
	Trees, fruit trees	
	Variety in style and planting	
	Seating / picnic area	
	Boundary hedges	
	Safe and accessible	
	Flower beds to attract wildlife	
	Laid to lawn with seating areas	
	Enclosed by small fence like that at CALA homes, therefore in	
	keeping and children kept safe	
	Rustic, natural and low maintenance	
	No features other than flower beds and ornamental gates	
	Fruit and veg kept to a minimum as that's what the allotment is for	or

Cycle path	Garden features along path Easy to wheel a barrow along – provide a good link between the north and south gardens Flat and smooth, 3 m min width Gently winding Fencing along path would be really inconvenient to those accessing the gardens Lighting please Walking path, not cycle path Straight, most direct route Hard surfaced Cyclist prevented from crossing road without pausing Gates at entrance/exit	Discussions are being had with City Council Planners, County Council Highways regarding revisions to cycle path design and planning permission.

Additional Comments

Should be used by Clay Farm residents only

Establish a mission / remit

Forge links with schools, youth groups, mental health groups to support the development of the garden and having training, education and working group on the gardens.

Decision making process is unclear.

Community garden, therefore provide a variety of features for all.

Way non gardeners can become involved in the site, e.g. yoga. Range of activities for young and old.

Clarification of steering group mandate and publish previous minutes

We should not discourage non-residents of clay farm those and volunteer on the site, but the look and feel of the place must be guided by those who have to live with it.

Sense of ownership of the gardens, people able to feel like they can enjoy the space.

Artwork on the entrances, linked to what it on other areas of Clay Farm

Crossing point between gardens needs to be carefully consider for safety
